

elements as set forth in the *Recipient Reporting Data Dictionary* (available electronically at <https://www.federalreporting.gov/federalreporting/downloads.do>). On June 22, 2009, OMB issued the following reporting guidance in its "Implementing Guidance for the Reports on Use of Funds Pursuant to the American Recovery and Reinvestment Act of 2009" (M-09-21):

**Prime Recipients:** The prime recipient is ultimately responsible for the reporting of all data required by section 1512 of the Recovery Act and the OMB Guidance, including the Federal Funding Accountability and Transparency Act (FFATA) data elements for the sub-recipients of the prime recipient required under section 1512(c)(4). In addition, the prime recipient must report three additional data elements associated with any vendors receiving funds from the prime recipient for any payments greater than \$25,000. Specifically, the prime recipient must report the identity of the vendor by reporting the DUNS number, the amount of the payment, and a description of what was obtained in exchange for the payment. If the vendor does not have a DUNS number, then the name and zip code of the vendor's headquarters will be used for identification.

**Sub-Recipients of the Prime Recipient:** The sub-recipients of the prime recipient may be required by the prime recipient to report the FFATA data elements required under section 1512(c)(4) for payments from the prime recipient to the sub-recipient. The reporting sub-recipients must also report one data element associated with any vendors receiving funds from that sub-recipient. Specifically, the sub-recipient must report, for any payments greater than \$25,000, the identity of the vendor by reporting the DUNS number, if available, or otherwise the name and zip code of the vendor's headquarters.
