1. I am a Professional Photographer and the "ASMP and the Copyright Alliance have informed me of this welcome invitation from the Obama Administration to share my thoughts on my rights as a creator."
2. Intellectual property rights are important to me, and piracy and infringement affect me and my livelihood very much. I need the U.S. government to do better protecting the rights of creative Americans.
3. *Please keep this in mind when passing or suggesting legislation relating to usage of photo or removal of any rights of photographers to the art we produce.*
