To Whom It May Concern,

Being in the music business for over 19 years has been quite interesting to say the least.

My name is Chase Clark and I am a professional music producer with Gold and Platinum credits.

When I 1st started in the music business it was very rewarding to a up and coming artist. Over the

course of time (**DIGITAL AGE**) my life/career has been through a lot of ups and downs. The money

in the music business is just not there anymore. I was once able to live off of my royalties/production fee's but now I can not do so. The art of music is being completely destroyed

because of piracy illegal downloads. This has affected my Family and me in a major way. My wife is also in the entertainment business and we are having a very difficult time raising our two kids. I feel the work that I do is all for anyone to steal/download

as they please. Artist photo's and music are being taken without consent and put out into the public for free. This is costing our industry millions of dollar's a year.

Hopefully in the near future **MY BUSINESS** will have the control it once had.

Hopefully in the near future we will be able to raise our kids/make a living in an art form that we love!!!!

I'm Thanking You and the White house for taking time out to deal with this very important issue that is Destroying a lot of lives.

Best,
Chase Clark

Music Producer
