Dear Ms. Espinel,

The Copyright Alliance has informed me of this welcome invitation from the Obama Administration to share my thoughts on my rights as a creator."

As an creative individual and an inventor, I am always reminded that our patents and inventions are not truly protected "off-shore", especially in China. We Americans spend enormous sums developing concepts, patent fees, etc., only to find our inventions duplicated overseas, with no recourse of recovering fees or seeking "cease and desist" legal action.

We need much stronger action and legal retaliatory measures to enforce respect of our intellectual rights. Our government has to seriously create defensive measures to protect our copyright and patent right overseas. We have to stop the flagrant abuse affect sing our profits and ultimately our U.S. taxes.

Foreign governments are undermining the full scope of our capitalistic structure and potential payouts in U.S. profits/taxes by allowing their citizens to copy our intellectual properties...with no risk or fear of legal measures.
