OMB-IntellectualProperty

Copyright laws

Thursday, March 18, 2010 7:56:28 PM

Please enforce the copyright laws we already have. Thats all you need to do. The copyright laws should be enforced for everyone NOT just the mega businesses like Disney.

Do not pass more laws that will only place burdens on those that create intellectual property. Do not pass more laws that you will not enforce.

The laws we have now are fine. Just enforce them.
