---

Dear IPEC:

Thank you for the opportunity to comment on your continuing efforts to increase "intellectual property" enforcement.

Hopefully, but probably not, the below linked document should amply demonstrate the real-world consequences of more and more enforcement:

<http://www.eff.org/wp/unintended-consequences-under-dmca>

As part of the Joint Strategic Plan, I'd like to suggest integrating data and case studies demonstrating the lengths to which "intellectual property enforcement" are directly negating the rights of all Americans.

Thank you,

Robert Hoover  
Stowe, VT
