Intellectual property is proving to be the main source of income for musicians like myself. That's why it's important to protect it. With jobs leaving the country and nothing available I have gone back to performing, writing and recording music for a living. Tough thing to do when people are copying and stealing the music I write and spend thousands to produce.

We need some sort of protection that can stop unpaid downloads and sharing..Maybe codes to unlock??

Don Mancuso

Rochester, New York

Musician/Song writer. Rock, Celtic, pop and other types of music.

Thanks,

Don
