Hello IPEC,

I am a professional cartoonist and writer.

Please do not make any changes to the Copyright law. Giving ownership to those who didn't create an Intellectual Property (even decades after its creation) is wrong. It would also bring about innumerable lawsuits.

Ownership of an Intellectual Property should remain in the control of those who created it. Copyrighted material should also be able to transfer to the heirs of a creator, as well. It's just the right thing to do. Anything different would be theft.

Thank you for your time, and help.

I pray that all is well. Glory to God.

best,

Al Nickerson
