Copyright is intended to foster innovation and be for the public good. Not to primarily be for the private profit. Read all about it in the Constitution:

"The Congress shall have Power ... To promote the Progress of Science and useful Arts, by securing for limited Times to Authors and Inventors the exclusive Right to their respective Writings and Discoveries."

It is to be for limited time, and to promote progress, not to promote profit.

There also things like fair use. Remember to include them.

Ken Riggle
