ASMP and the Copyright Alliance have informed me of this welcome invitation from the Obama Administration to share my thoughts on my rights as a creator. Without these laws my rights would have been criminally infringed upon by a corporation who was counting on me to ignore their unlicensed use of my photography to further their interests. I do not make images for free and there fore require to sell my work. My usage licenses are very specific to the needs of the client and I hope that they respect my rights as much as they would want me to respect theirs.

Thank you.
