APPENDIX F—FORMAT OF SF 132, SF 133, SCHEDULE P, AND SBR

Table of Contents

Exhibit F–1 Line Numbers for the SF 132, SF 133, Schedule P and SBR

Exhibit F–2 Abbreviated Line Titles for the SF 132 and SF 133

Summary of Changes

Adds lines in SF 132, SF 133, and schedule P to incorporate transfers of advance appropriations and lines to incorporate unobligated balances that are precluded from obligation (i.e., limitation on administrative expenses) in a fiscal year by a provision of law.

Modifies and adds new lines in SF 133, schedule P and SBR to separate obligations in unexpired accounts and upward adjustments of obligations in expired accounts.

Adds memorandum lines in schedule P to capture International Monetary Fund quota reporting.

Incorporates revisions from Circular No. A-136 for recoveries of prior year paid obligations in the Budget authority and outlays, net section of the Statement of Budgetary Resources.

1. OVERVIEW OF THE SF 132, SF 133, SCHEDULE P, and SBR

The format employs three common data sections—Budgetary resources; Change in obligated balance; and Budget authority and outlays, net. The SF 133, Schedule P and SBR will use all three of the sections, and the SF 132 will use the common Budgetary resources. Unique sections, such as Application of budgetary resources, continued to be used.

Sections	SF132	SF133	Schedule P	SBR
Obligations by program activity			X	
Budgetary resources	X	X	X	X
Status of budgetary resources		X		X
Change in obligated balance		X	X	X
Budget authority and outlays, net		X	X	X
Memorandum (non-add) entries			X	
Application of budgetary resources	X			
Unfunded deficiencies			X	
Guaranteed loan levels and applications	X			

OMB adopted the use of a new 4-digit line code structure where the first number of the line code indicates the section.

Line Number	Section:		
0xxx	Obligations by program activity		
1xxx	Budgetary resources		
2xxx	Status of budgetary resources		
3xxx	Change in obligated balance		
4xxx	Budget authority and outlays, net		
5xxx	Memorandum (non-add) entries		
6xxx	Application of budgetary resources		
7xxx	Unfunded deficiencies		
8xxx	Guaranteed loan levels and applications		

2. OBLIGATIONS BY PROGRAM ACTIVITY

Use the entries in the following table to prepare the "Obligations by program activity" section Schedule P. For additional guidance, see section 82 (Combined Schedule X).

Credit programs:	
Program accounts:	
0701-0709	
Financing accounts:	
0710-0744	
Reimbursable: 0800-0899	
0900 Total new obligations, unexpired accounts	Equals the sum of the amounts on the detail lines 0001 to 0899. Equals line 3010.

3. BUDGETARY RESOURCES

Use the entries in the following table to prepare the "Budgetary Resources" section of the SF 132, SF 133, and Schedule P. For additional guidance, see section $\underline{120}$ (SF 132), section $\underline{130}$ (SF 133), and section $\underline{82}$ (Combined Schedule X).

Entry	Description
Unobligated balance:	
1000 Unobligated balance brought	For unexpired accounts:
forward, Oct 1	Amount of unobligated balance of appropriations or other budgetary resources carried forward from the preceding year and <i>available for obligation</i> without new action by Congress. Do <i>not</i> include special or trust fund amounts and offsetting collections that are not available for obligation because of provisions of law, such

as benefit formulas or limitations on obligations (see section 20.4(f)).

Includes uninvested balances and balances invested in Federal securities (par value), adjusted for unrealized discounts (a negative amount). Includes all unobligated balances (definite appropriations, definite borrowing authority, definite contract authority, fund balances) at the start of the year.

Include the impact of reductions of these prior year balances enacted on lines 1131, 1133, 1230, 1232, 1520, 1620, 1723, and 1823.

If unobligated balances are used to liquidate deficiencies, report the amount used as a negative adjustment on line 1034 and reduce the amount on line 1000 for Schedule P. For the SF 133, do not include any amounts on lines 1034 and 1901 because the SF 133 does not include the unfunded deficiencies section. See Exhibit 130M.

The amount on this line should be the same as the *end of year amounts* of the previous fiscal year:

- On lines 2201, 2202, 2301, 2302, 2401, 2402, and 2403; or line 2490 of the September 30 SF 133;
- In the Treasury Combined Statement Appendix; and
- In the past year column of the Program and Financing Schedule of the Budget Appendix on line 1941.

You must provide line splits on apportionment requests that characterize the unobligated balances in up to two ways.

First, in TAFSs that are split accounts (e.g. have both discretionary and mandatory funds), the first letter of the line split must be "D" to highlight those balances that are discretionary. (See section 120.20 for additional information.) In no other cases, e.g. in TAFSs that are wholly discretionary or mandatory, should you use the letter "D" in the line split value.

Second, you must distinguish whether the balances are estimates or actual balances. You must use a line split of E to indicate the balance is an Estimate or a line split of A to indicate the use of an Actual balance. If the account is apportioned by time periods and the difference between the estimate and the actual is within the range of adjustment permitted by section 120.50, adjust the apportionments accordingly. If the difference is greater, OMB must approve a request for reapportionment before the funds that are greater than the automatic apportionment can be obligated.

In cases where you have discretionary estimated balances, the line split would be "DE"; for discretionary, actual balances, the line split would be "DA". Some agencies further distinguish balances by appending a number to the line split and changing the line stub to indicate the source of the balances. In these kinds of cases, the line split values may be "DA1", "DA2", and "DA3".

For expired accounts:

Amount of expired unobligated balances available for upward adjustments of obligations.

In the first expired year, the amount should be the same as the amount of unobligated balances on lines 2201, 2202, 2301, 2302, 2401, 2402, and 2403; or line 2490 of the previous fiscal year's September 30 SF 133. In the second expired year and thereafter,

Entry	Description
	the amount should be the same as the amount on line 2403 of the previous fiscal year's September 30 SF 133.
	These balances are available only for valid upward adjustments of obligations that were properly incurred against the account during the unexpired phase.
	For unexpired and expired accounts:
	Appropriated receipts.—Do not include the balances of unavailable collections that are precluded from obligation due to a provision of law, such as a benefit formula or limitation. See lines 1134 and 1234.
	Indefinite budget authority.—Do not carry forward any amounts on this line for (1) indefinite appropriations except for available special and trust fund receipts; (2) indefinite borrowing authority, or indefinite contract authority.
1001 Discretionary unobligated balance	For unexpired accounts:
brought forward, Oct 1	Portion of amount shown on line 1000 that is classified as discretionary. The amount on this line cannot exceed the amount on line 1000.
Nonexpenditure transfers:	
1010 Unobligated balance transferred	For unexpired accounts:
to other accounts (–)	Amount of any unexpired unobligated balance of appropriations or spending authority from offsetting collections, that is <i>actually transferred</i> from this account to other accounts.
	For expired accounts:
	Amount of unobligated balances that have been canceled due to reappropriation.
	Adjustments may be made to reflect enacted reductions that should have been but were not made against an account when it was unexpired. Newly enacted reductions may not be made against an expired account.
	Use lines 1131/1230 in the losing expired account for expired balance transfers that are classified as reappropriations in the gaining unexpired account on lines 1105/1204.
	Amount of any expired unobligated balance actually transferred from this account to an expired account.
	Include allocation transfers for expired accounts.
	For unexpired and expired accounts:
	Amount of unexpired unobligated balance transferred to other accounts that represents an adjustment to the accounts involved and does not involve an obligation or an outlay (see section 20.4(j)).
	Use only for transfers of balances of prior year resources resulting from general transfer authority or reorganizations authorized by law, where the purpose has not changed. Show transfers of balances of prior year resources that result from legislation that changes the purpose for which the amounts are available as adjustments to budget authority on line 1120. Generally, transfers to other accounts cannot exceed the unobligated balance at the start of the year.
	Include only nonexpenditure transfers on this line. Do not include expenditure transfers, including transfers from trust funds to Federal funds required or permitted by law, because they are treated as expenditure transfers. Record expenditure transfers on

1011 Unobligated balance transferred from other accounts

lines 1700 and 1800 (for amounts actually transferred via expenditure transfers); and lines 1740 and 1840 (for amounts anticipated to be transferred via expenditure transfer). The treatment of expenditure transfers is explained in section 20.4(j) (4).

For unexpired accounts:

Include the amount of any unobligated balance of appropriations or spending authority from offsetting collections that is *actually transferred* to this account from other accounts.

For expired accounts:

Amount of unobligated balances that have been canceled due to reappropriation.

Adjustments may be made to reflect enacted reductions that should have been but were not made against an account when it was unexpired. Newly enacted reductions may not be made against an expired account.

Amount of any expired unobligated balance actually transferred to this account from an expired account.

Include allocation transfers for expired accounts.

For unexpired and expired accounts:

Amount of unexpired available unobligated balances transferred from other accounts that represents an adjustment to the accounts involved and does not involve an obligation or an outlay (section 20.4(j)). Use only for transfers of balances of prior year resources resulting from general transfer authority or reorganizations authorized by law, where the purpose has not changed. Show transfers of balances of prior year resources that result from legislation that changes the purpose for which the amounts are available as adjustments to budget authority on line 1121.

Include only nonexpenditure transfers on this line. Do not include expenditure transfers, including transfers from trust funds to Federal funds required or permitted by law, because they are treated as expenditure transfers. Include expenditure transfers to this account on lines 1700 and 1800 (for amounts actually transferred via expenditure transfers); and lines 1740 and 1840 (for amounts anticipated to be transferred via expenditure transfer). The treatment of expenditure transfers is explained in section 20.4(j) (4).

1012 Unobligated balance transfers between expired and unexpired accounts (+ or -) For unexpired and expired accounts:

Amount of expired unobligated balances actually transferred into this account as the result of authority to extend the period of availability of expired balances that are not considered to be reappropriations. Do not report expired balances transfers that are considered to be reappropriations and must be reported as new budget authority (see sections 20.4(h) and 120.65). See lines 1105/1204 for expired balance transfers that are classified as reappropriations.

Amount of unexpired unobligated balances transferred out of this account pursuant specific statutory authority (e.g., foreign currency valuations in expired accounts). This authority only applies to the Department of Defense.

Also, amount of any expired expenditure transfers receivable *transferred* from an expired account to an unexpired account.

Entry	Description
1013 Unobligated balance of contract authority transferred to or from other accounts (net) (+ or –)	For unexpired accounts: Amount of unobligated balances of contract authority transferred between non-allocation accounts. This line is only for use by the Department of the Transportation.

1020 Adjustment to unobligated balance brought forward, Oct 1 (+ or -)

Changes to unobligated balances that occurred in a prior fiscal year and that were not recorded in the unobligated balance as of October 1 of the current fiscal year. These may be identified by the financial statement auditors, agency personnel, or others.

Include adjustments posted to the agency financial system that are either material or non-material. When reporting to GTAS, agencies will use an attribute to show that their USSGL account balances are not current-year activity—even though these balances would otherwise look like current-year activity. GTAS will use this attribute to crosswalk these USSGL account balances to this adjustment line.

OMB and the Department of the Treasury's Bureau of the Fiscal Service (Fiscal Service) will review the Fund Balance with Treasury (FBWT) component of the adjustments that agencies report to GTAS each quarter. The Fiscal Service will only backdate prior year adjustments on a transaction basis in a Treasury Appropriation Fund Symbol (TAFS) that round to \$1 million or more. This range includes amounts greater than or equal to \$500,000.

Agencies should generally exclude reclassifications from clearing accounts to other TAFSs, but may consult OMB if they want to include some of these reclassifications as adjustments.

Exclude the following amounts from this line:

- Downward adjustments of unpaid obligations incurred in prior fiscal years that were not outlayed. Report this on line 1021:
- Upward adjustments of obligations previously incurred.
 Report these on detailed lines 2001 through 2103; and
- Refunds collected from prior year obligations that have been outlayed from the TAFS that was charged with the original obligations. Report these amounts on lines 1700 and 1800.

On the SF 133, material and non-material adjustments to the unobligated balance as of October 1 of the current fiscal year should be included on line 1020. On the Statement of Budgetary Resources, material amounts are part of the unobligated balance as of October 1 of the current fiscal year because the prior year's financial statements are restated.

1021 Recoveries of prior year unpaid obligations

Amount of cancellations or downward adjustments of obligations incurred in prior fiscal years that were not outlayed. Include the adjustments since October 1 of the current year. Show the actual recoveries of prior year unpaid obligations, as shown on the SF 133, on reapportionment requests.

Include recovered amounts obligated against *indefinite* borrowing authority that was borrowed. Then subtract the same amount on line 1023.

Include recovered amounts obligated against *indefinite* borrowing authority that was *not* borrowed. Then subtract the same amount on line 1024.

Include recovered amounts obligated against *indefinite* contract authority that was funded or *unfunded* contract authority. Then subtract the same amount on line 1025.

Exclude cancellations or downward adjustments of obligations incurred and outlayed in prior fiscal years since they must be accompanied by cash refunds. Include cash refunds collected (i.e., recoveries of prior year obligations incurred and outlayed in prior fiscal years) on line 1033. For upward adjustments, see detailed lines 2001 through 2103.

Exclude recoveries of current year unpaid obligations, which will be netted against obligations on detailed lines 2001 through 2103.

Exclude adjustments to current year beginning balance recorded on lines 1020 and 3001.

For unexpired annual accounts, leave line 1021 blank.

For the final September 30 report, before an account is closed, all remaining unobligated and obligated balances must be canceled. To cancel these obligated balances, include the amount to be canceled, as a positive. Then, include the same amount as a negative on line 1029.

1022 Capital transfer of unobligated balances to general fund (–)

Amount of balances deposited to Treasury capital transfer receipt accounts, such as "Earnings of Government-owned enterprises," or "Repayments of capital investment, Government-owned enterprises." These are nonexpenditure transfers. Don't include interest payments, which should be reported as obligations on SF 132 detail lines 6001 through 6173 and SF 133 detail lines 2001 through 2103. Do not include capital transfers of offsetting collections received during the year, which should be reported on lines 1720 and 1820.

1023 Unobligated balances applied to repay debt (–)

Amount of balances used for repayment of debt principal. Do not include appropriations or new offsetting collections used to repay outstanding debt (see lines 1135, 1236, 1726 and 1825). Obligations must be recorded for interest payments on SF 132 detail lines 6001 through 6173; SF 133 detail lines 2001 through 2103; and schedule P detail lines 0001 through 0899.

If the recovered amount on line 1021 above was obligated against *indefinite* borrowing authority that was borrowed, then include the repayment to Treasury of the principal amount borrowed, as a negative, on this line.

First use budgetary resources to pay interest, and the balance to repay principal as a negative on this line. Enter the obligation of interest to Treasury on detailed SF 132 lines 6001 through 6173 and on detailed SF 133 lines 2001 through 2103. Enter the interest payment to Treasury on lines 4010, 4011, 4100, and 4101.

1024 Unobligated balance of borrowing authority withdrawn (–)

Amount of balances of indefinite borrowing authority realized through recoveries of prior year unpaid obligations or downward adjustments that have been withdrawn in no-year or multiple year accounts. The sum of the amounts on lines 1024 and 1025 cannot exceed the amount on line 1021.

Note: When new appropriations or new offsetting collections are used to liquidate obligations initially incurred against *borrowing*

	This line is only to be used by the Social Security Administration, the Department of Health and Human Service, and the Department of Treasury.
1027 Adjustment in unobligated balances for change in investments of zero coupon bonds (special and non-revolving trust funds)	At the time the zero coupon bond is purchased, record an amount equal to the purchase price (par value minus purchase discount) as precluded from obligation. As the discount is amortized and recorded as earnings, record the earnings as precluded from obligation. When the bond matures or is redeemed, all amounts previously precluded from obligation become available for obligation. Use only for special and non-revolving trust funds.
1028 Adjustment in unobligated balances for change in investments of zero coupon bonds (revolving funds)	At the time the bond is purchased, record an amount equal to the purchase price (par value minus purchase discount) as precluded from obligation. As the discount is amortized and recorded as earnings, record the earnings as precluded from obligation. When the bond matures or is redeemed, all amounts previously precluded from obligation become available for obligation. Use only for revolving funds.

	For expired accounts:
	For the final September 30 report, before an account is closed, all remaining unobligated and obligated balances must be canceled.
	To present these unobligated balances as canceled, remove the amounts from lines 2201 through 2403 and include them here, as a negative. To cancel obligated balances, include the amount on line 1021, as a positive, and on this line as a negative.

1030 Other balances withdrawn to special or trust funds (–)

For unexpired accounts:

Amount of unobligated balances written off or withdrawn by administrative action. Include cancellations in no-year accounts pursuant to <u>31 USC 1555</u>; otherwise, do not include amounts rescinded or canceled by law.

To present these unobligated balances as canceled, remove the amounts from lines 2201 through 2403 and include them here, as a negative. To cancel obligated balances, include the amount on line 1021, as a positive, and on this line as a negative.

1031 Other balances not available (–)

For unexpired accounts:

Include the portion of the unobligated balances in a no-year Treasury account where the amount is no longer available for obligation since the purposes for which the appropriation was enacted has been fulfilled. (e.g., analogous to what could be called a partial cancellation if allowed under 31 U.S. C. 1555).

Includes refunds (i.e., cancellations or downward adjustments) of prior year paid obligations credited to the same appropriation or fund account charged with the original obligation. Excludes refunds of prior year paid obligations credited to a different appropriation or fund account. These will be reported on lines 1700 or 1800, as appropriate.

Applies to amounts credited to special and non-revolving trust fund expenditure accounts but not to special or trust fund receipts appropriated to special or trust fund expenditure accounts and shown as budget authority on lines 1101 and 1201.

For recoveries of prior year unpaid obligations, see line 1021.

Budget authority:			
Appropriations:			Amount of appropriations specified in appropriations acts or in substantive laws that become available for obligation on or after October 1 of the fiscal year.
			Regular appropriations.—Amounts made available in any of the 12 regular appropriations acts. In cases where the amount appropriated is reduced by an amount of offsetting collections or revenues during the fiscal year so as to result in a final fiscal year appropriation estimated at not more that XXX, the amount derived from the General Fund of the U.S Treasury shown on this line should be reduced by the amount of offsetting collections or revenues received during the fiscal year on the September 30 SF 133. See exhibit 130J.
			Supplemental appropriations.—Amounts made available in supplemental appropriations acts.
			Appropriation provided under a continuing resolution.— The annualized level of the appropriation. If the continuing resolution is for less than the full year, subtract the portion not available on line 1134. See exhibits 120F and 120G.
			When the regular appropriations act is passed, replace the amount on lines 1100, 1101, 1103, 1105, 1170, and 1171

Entry	Discre- tionary	Man- datory	Description	

with the amount specified in the regular appropriations act. See exhibit 120H.

Some laws that make appropriated receipts available for obligation specify the amount appropriated. These are *definite appropriations*. Other laws that make appropriated receipts available for obligation do not specify the amount appropriated. These appropriated receipts are *indefinite appropriations*. For indefinite appropriations of appropriated receipts, refer to lines 1101 and 1201.

Appropriations contingent upon authorizing legislation or upon designation as an emergency.—When an appropriations act specifies that all or a portion of the amount appropriated is not available for obligation until specifically authorized by another law, or are not available for obligation until the President submits a budget request to the Congress designating the amount as an emergency:

- Include the *full amount* of the appropriation on line 1100, and
- Subtract the amount *not* authorized by law or *not* designated as emergency requirements by the
 President on line 1134 except on the September 30
 SF 133.
- At the beginning of the next fiscal year, any unobligated balance that is still contingent and would still be available for new obligations if the contingency is met will be included on line 1000 and subtracted on line 1134 as unavailable until either the authorizing legislation is enacted or the amount is designated by the President. This paragraph does not apply to contingent emergency appropriations enacted in FY 1999 or earlier.

Contingent emergency appropriations from FY 1999 and prior years.—If the President designates a contingent emergency appropriation from FY 1999 or a prior year as emergency requirements, include the amount on this line in the year of the Presidential designation.

Appropriations to liquidate debt.—Appropriations that are available to repay amounts borrowed from the Treasury but are not available to incur obligations. Include the appropriation to liquidate debt on line 1100 or 1200 and the repayment to Treasury on line 1135 or 1236, as a negative. Include any excess on line 1029, as a negative.

Appropriations to liquidate deficiencies.—Appropriations that are specifically made available to liquidate obligations in excess of budgetary resources and not available to incur obligations. Include appropriations to liquidate deficiencies on line 1100 or 1200 as a positive amount and on line 1136 or 1237 as a negative amount on schedule P only. If appropriations that are not specifically made available to liquidate deficiencies (and are otherwise available for obligation) are used to liquidate deficiencies, included the appropriations on line 1100 or 1200 as a positive amount and on line 1901, as a negative amount on schedule P only. Deficiencies are included on lines 7000 through 7020 for schedule P only. This applies to unexpired and expired accounts. Normally, there are no excess amounts because

			Appropriations to liquidate contract authority.—Typically, contract authority is provided to incur obligations in one action by Congress (often in authorizing legislation) and separate appropriations of liquidating cash are provided in appropriations acts. The appropriation to liquidate is shown as a positive amount on line 1100 or 1200 and as a negative on line 1137 or 1238. Thus, the total budgetary resources on lines 1910 (SF 133), 1920 (SF 132), and 1930 (Schedule P) equal zero. See exhibit 120M.
			In a few cases, contract authority may be provided in order to permit agencies to incur obligations in anticipation of offsetting collections and appropriations to liquidate the obligations may be provided if the anticipated offsetting collections have not been realized. These appropriations to liquidate should be recorded as described above. Include any excess amounts on line 1138 as a negative.
			Appropriations substituted for borrowing authority.— Occasionally, portions of appropriations are available to liquidate obligations initially incurred against borrowing authority when the borrowing is not exercised. The amounts are available to liquidate obligations but are not available for obligation. Include such portion substituted for borrowing authority on this line. Include an amount equal to the portion of appropriation substituted for borrowing authority on line 1139 or 1239 as a negative. Thus, the budgetary resources on lines 1910 (SF 133), 1920 (SF 132), and 1930 (Schedule P) equal zero.
			Debt forgiveness appropriation.—An amount that Congress provided equivalent to an inferred appropriation to retire debt as specified in a public law. The amount is shown as a positive amount on line 1100 or 1200 and as a negative amount on line 1135 or 1238.

Indefinite appropriation from other than appropriated receipts.—Include an estimate of the amount to be obligated during the fiscal year. On the September 30 report, reduces the amount on lines 1100 and 1200 for the portion that is not needed to cover obligations. Therefore, the amount certified by appropriation warrants for the year, after being reduced by negative warrants issued by the Treasury or end-of-year statements.

Appropriation (special or trust fund)	1101	1201	Amount appropriated from special or trust fund receipts.
			• The following applies to lines 1101 and 1201.
			 Appropriated receipts.—Collections deposited in special and trust fund receipt accounts that are earmarked for special and trust fund expenditure accounts. Of these amounts:
			• Some receipts are <i>appropriated</i> and are available for obligation. Include the amounts <i>collected in the current fiscal year</i> on this line.
			• Some receipts are appropriated, but a portion is precluded from obligation by a provision of law, such as a benefit formula or limitation. Include the amounts collected in the current fiscal year on this line. Subtract the amounts that are that are not expected to be available as a negative amount on line 1134 or 1234 and show this amount on the September 30 report. See exhibit 120N.
			 Some receipts were collected in a previous fiscal year and precluded from obligation in a previous fiscal year. Include the amounts expected to become available pursuant to law during the fiscal year on this line.
			• Some receipts are <i>not appropriated</i> . Exclude these amounts from this line.
			NOTE: In exceptional cases, there is authority in law to invest collections. In such cases, the current year collections and prior year collections (not shown on the SF 132) will not be available for obligation (and will not be included on the SF 132 and SF 133 until needed to incur obligations) but will be available for investment. Unlike OMB, Treasury classifies these funds as "available."

Appropriation available in prior year (–)	1104	n/a	Portion of the appropriation made available for obligation as advance funding in the preceding year. The following applies to lines 1103 and 1104.
			Advance funding is generally used to finance higher than anticipated costs in benefit programs. Include the portion that will be obligated in the current year on this line. Reappropriation	1105	1204	Amount of new budget authority resulting from legislation that extends the availability of funds that have expired or would otherwise expire. Such extensions of availability are counted as new budget authority in the first year of the extended availability (see sections 20.4(h) and 120.65).
			The losing account has expired; therefore, no reapportionment action is needed for the losing account. For the SF 133, the losing account will include a negative amount on line 1131 or 1230 of the previous year.
			Use line 1012 for expired unobligated balance transfers that are not reported as new budget authority in the unexpired account. Use line 1010 for the expired account. Since the losing account has expired, no reapportionment action is required.
Nonexpenditure transfers:			
Appropriations transferred to other accounts (–)	1120	1220	Amount of budget authority enacted for the fiscal year that is <i>actually</i> transferred from the account to other accounts under existing legislation that does not involve an obligation or an outlay.

For special and trust fund accounts, amount precluded from obligation in a fiscal year by a provision of law (such as a limitation on obligations or a benefit formula). This amount is treated as a balance of unavailable budgetary resources. When a mandatory amount becomes available for obligation, report it on line 1203.

The following paragraphs describe the application of the above principle to specific circumstances:

- Appropriated receipts.—For the September 30 SF 133, include the portion of receipts collected in the current fiscal year in special or trust funds that is precluded from obligation due to a provision of law (such as a limitation on obligations or a benefit formula). For special and trust funds with mandatory appropriations, the total amount of new receipts is included on line 1201. This amount is treated as a balance of budgetary resources (see the description of line 1203).
- Appropriations provided by a part-year continuing resolution.—When an account is operating under a part-year continuing resolution, include, as a negative amount, the portion of the annualized level included on lines 1100 and 1101 that is not available for obligation under the terms of the continuing resolution. Do not include this amount on the September 30 SF 133.
- Deferral.—When a congressionally-initiated deferral of an amount that has been appropriated is enacted, include the amount not available for obligation, as a negative amount, on this line. Do not include this amount on the September 30 SF 133
- Appropriations contingent upon authorizing legislation.—Include amount not available for obligation until specifically authorized by another law, as a negative amount. For SF 132, cite the appropriations act in the stub. The full amount of the appropriation is on lines 1100 and 1101. Do not include this amount on the September 30 SF 133.
- Emergency, contingent appropriations.—Include amount representing the funds the President has not yet designated as emergency requirements, as a negative amount. The full amount of the appropriation is on lines 1100 and 1101. Do not include this amount on the September 30 SF 133.

In addition, other amounts appropriated for emergencies may also be included if an emergency must exist to make the funds available for obligation, even if a Presidential declaration is not required.

Obligation limitations.—Include amount by which an obligation limitation reduces the budget resources temporarily (the budget resources remain available after the expiration of the obligation limitation).

Spending authority from offsetting collections:			As a general rule, spending authority from offsetting collections from Federal sources should be classified as mandatory or discretionary based on the activities for which the offsetting collections are outlayed and spending authority from offsetting collections from non-Federal sources should be classified based on whether the legislative language that created the collection is in authorizing legislation or appropriations act (see section 81.2).
Collected	1700	1800	For unexpired and expired accounts:
			Offsetting collections credited to expenditure accounts by law.
			See section <u>83.5</u> for direct or reimbursable classification of associated obligations against spending authority from offsetting collections.

In a few cases, offsetting collections for reimbursable work and payments from Federal funds may be specifically authorized by law to be credited to special fund expenditure accounts and non-revolving trust fund expenditure accounts, in which case, these lines should be used to report such amounts.

Adjustment for new budget authority used to liquidate deficiencies (–)	1901	1901	For Schedule P, report the amount of new budget authority used to liquidate obligations that were incurred in a prior fiscal year without sufficient budget authority to legally cover such obligations. Total budgetary resources	1910	1910	Always generated from the sum of combined total of unobligated balances, budget authority: The sum of lines 1000 through 1033, 1035 through 1042, 1100 through 1153,

			Always generated from the sum of combined total of unobligated balances, budget authority, and line 1901: The sum of lines 1000 through 1035, 1100 through 1139, 1170 through 1175, 1200 through 1239, 1270 through 1275, 1300 through 1320, 1400 through 1423, 1500 through 1522, 1600 through 1622, 1700 through 1728, 1800 through 1827, and 1901. [Schedule P]
			For unexpired accounts:
			This amount will differ from the amount on line 1920 on the latest SF 132 to the extent that individual amounts have changed that do not require the submission of a reapportionment request (see section 120.37).
			For expired accounts:
			This amount is not available for new obligations. See sections $\underline{130.10}$ – $\underline{130.13}$ for additional instructions.

In a limited number of cases, the following guidance applies to specific Treasury Appropriation Fund Symbols. Affected amounts are included on SF 132 line 1100:

• Appropriations of Specific Amounts of which "Not to Exceed" a Portion Remains Available Beyond the Remainder of the Appropriation. In a limited number of cases, the basic amount of the appropriation is available for one year (or for a fixed amount of time) and the law permits "not to exceed" or "up to" a specific amount to be available for a longer period of time or until expended.

Initial apportionment requests for these accounts should display the maximum possible amount in the Treasury account with the extended availability and the balance in the Treasury account with the lesser time availability (on this line).

Note.—Treasury will warrant the full amount in the one-year account. You should move the funds to the account with the extended fund availability using the SF 1151. This movement of funds is not a transfer because the original appropriation is for the extended availability, even though the SF 1151 is titled "Nonexpenditure Transfer of Funds."

If you subsequently determine that the maximum amount is not needed in the account with the extended availability, you should submit a reapportionment request proposing to transfer the funds to the account of

lesser time availability. Show this transfer on SF 132 lines 1120 "Appropriation transferred to other account (-)," 1151 "Anticipated nonexpenditure transfers of appropriations (net) (+ or -)," 1010 "Unobligated balance transferred to other accounts (-)" or 1040 "Anticipated nonexpenditure transfers of unobligated balances (net) (+ or -)," as appropriate.

After OMB has approved the transfer, use the SF 1151 to transfer the funds to the account of lesser time availability. Such transfers are irreversible. That is, once the availability of funds is reduced, subsequent apportionments and SF 1151 may not extend the availability of these funds.

• Interest on the public debt. For the Interest on the Public Debt account, "interest" includes both the interest paid and the change in interest payable for public issues of Treasury debt securities and for certain special issues (i.e., Government account series) of Treasury debt securities—zero coupon bonds and DoD's Education Benefits Fund, Military Retirement Fund, Defense Cooperation Fund, and Medicare-Eligible Retiree Health Care Fund. The change in interest payable will be warranted when paid.

Entry	Description		
	This balance will be reported as a negative amount if budgetary resources (including estimates through the end of the year) are less than reported on the latest SF 132.		
	If, on the September 30 report, a negative amount is reported on this line, the amount must be offset by remaining balances. For accounts that are apportioned, the offset must be against apportioned funds reported on line 2201 or an apparent violation of the Antideficiency Act (31 U.S.C. 1341, 1342, or 1517) will have occurred. For accounts exempt from apportionment, the offset must be against lines 2301 - 2303 or an apparent violation of the Antideficiency will have occurred. Unrealized budgetary resources will, in effect, be considered an offset against amounts apportioned (lines 2201 through 2203) or exempt from apportionment (lines 2301 through 2303) rather than an unobligated balance not available for obligation (lines 2401 through 2403).		
	This line will be used for the un-apportioned balance of public enterprise and intragovernmental revolving funds, as well as trust funds that are subject to apportionment. For these types of funds, include the amount shown on line 6182 on the latest SF 132 (un-apportioned balance) plus the amount of upward adjustments in income until a reapportionment request is approved.		
	Appropriated receipts. For the September 30 report, exclude from this line the portion of receipts collected in the current year in special or trust funds that is precluded from obligation due to a provision of law. The full amount appropriated in on line 1201. The amount precluded from obligation is subtracted on line 1234.		
2412 Unexpired unobligated balance: end of year	Equals the sum of the amounts on detailed lines 2201, 2202, 2203, 2301, 2302, 2303, 2401, 2402, and 2403 (for unexpired accounts only). The amount on this line is excluded from the total on line 2500.		
2413 Expired unobligated balance: end of year	For expired accounts: Amount of expired unobligated balances that have not been used for valid adjustments. (These amounts are no longer available for new obligations.) For the final September 30 report before an account will be closed, the amount on this line should be zero.		
2490 Unobligated balance, end of year (total)	Sum of the amounts on detailed lines 2201, 2202, 2203, 2301, 2302, 2303, 2401, 2402, 2403, and 2413. Also equals the sum of the amounts on lines 2412 and 2413.		
	Anticipated amounts are part of the total amount on this line except on the September 30 th report. Refer to amounts on lines 2503 and 2504 reported during interim periods for direct and reimbursable unobligated balances, end of year excluding anticipated amounts.		
2500 Total budgetary resources	Sum of the amounts on detailed lines 2001 through 2403, and 2413. This amount equals the amount on line 1910.

	Where the SF 132 has insufficient space to list the categories by which apportionments are to be made or where apportionments are to be made both by activities (or projects or objects) and by time periods within the fiscal year, add lines to the SF 132. Other than adding lines to Category B, changes should not be made to the SF 132 without prior approval by OMB.

Category C (for future years) 6170 [Designated 1st FY beyond the current year] 6171 [Designated 2nd FY beyond the current year] 6172 [Designated 3rd FY beyond the current year] 6173 [Designated 4th FY beyond the current year]	When you plan to obligate amounts appropriated in a no-year or multi-year TAFS over more than one fiscal year, you may propose to apportion funds planned for obligation after the current fiscal year into a subsequent fiscal year. Include the amount planned for obligation after the current fiscal year on lines 6170 through 6173, apportioned for future fiscal years. OMB will not apportion annual TAFSs and the last year of multi-year TAFSs for periods longer than one fiscal year, as this would be an impoundment (i.e., a deferral during the year, and a defacto rescission after the funds expire).
Unapportioned:	
6180 Withheld pending rescission	For instructions on the use of this line, see section 112.3.
6181 Deferred	For instructions on the use of this line, see section 112.3.
6182 Unapportioned balance of revolving fund	This line will be used primarily for public enterprise funds, intragovernmental revolving funds, and trust funds that are subject to apportionment. For these types of funds, include the amount of budgetary resources that is not apportioned (made available for obligation) in order to preserve a portion of the fund's capital so it can continue to revolve and be available for its authorized purposes (see section 20.12(a)).
	Typically, in a guaranteed loan financing account, include the uninvested funds that serve as a reserve against loan guarantee defaults on this line.
	Do not include amounts deferred or proposed for rescission on this line.
	The amount on this line should equal the amount shown on line 1920, less the amounts apportioned on lines 6001 through 6173, less any amounts withheld pending rescission on line 6180 or deferred on line 6181.
6183 Exempt from apportionment	For accounts that have both apportioned and exempt from apportionment amounts, identify the amount of the exempt from apportionment portion.
6190 Total budgetary resources available	Sum of the amounts on lines 6001 through 6173, 6180, 6181, 6182 and 6183. This amount equals the amount reported on line 1920.

9. UNFUNDED DEFICIENCIES

Use the entries in the following table to prepare the "Unfunded deficiencies" section of the Schedule P. For additional guidance, see section $\underline{82}$ (Combined Schedule X). Note: See section $\underline{145}$ for additional reporting requirements on deficiencies.

Entry	Description
7000 Unfunded deficiency, start of year (–)	Amount of obligations included in unpaid obligations, start of year that exceeded the resources available when the obligations were incurred and will require an appropriation or offsetting collections to liquidate the deficiency.
7010 New deficiency (–)	Includes only amount of obligations (as of the end of the year) that exceeds the budgetary resources available for obligation or amount of obligations that exceeds budgetary resources deferred or withheld pending rescission and requires an appropriation or future offsetting collections to liquidate.
	Does not include obligations in excess of apportionments, allotments, or other agency subdivisions of funds even though such amounts are reportable as a violation of the Antideficiency Act. Use this entry in the year in which the deficiency is incurred.
7012 Budgetary resources used to liquidate deficiencies	Amount of budgetary resources used to liquidate deficiencies other than those specifically applied to deficiencies by law. Equals the amount on Schedule P lines 1034 and 1901, with the opposite sign.
7020 Unfunded deficiency, end of year (–)	Amount of obligations included in unpaid obligations, end of year that exceeded the resources available when the obligations were incurred and will require an appropriation or offsetting collections to liquidate the deficiency. Equals the sum of the amounts on lines 7000 through 7011.

12. HOW DO I TREAT EXTENSIONS OF THE AVAILABILITY OF UNOBLIGATED BALANCES?

Extensions of the availability of unobligated balances of budget authority are treated as new budget authority (e.g., reappropriations) or balance transfers depending on:

- The underlying authority to extend the availability; and
- Whether availability is extended before or after the balances have expired.
- Based on the factors above, the extensions are shown as follows:

(a) Apportionment

Reappropriations described in paragraph (a) are reflected on line 1105: "BA: Disc: Reappropriation", and 1204: "BA: Mand: Reappropriation." Initial apportionments for FY 2017 should reflect an estimate of the amount to be reappropriated from the estimated expiring FY 2016 balances. A reapportionment may be required after the actual amount of the expiring balances is known. You may wish to reflect these amounts on lines 1134, "BA: Disc: Appropriations precluded from obligation," or 1234, "BA: Mand: Appropriations precluded from obligation" until an appropriate time after the required reprogramming notice has been transmitted to Congress.

Balance transfer amounts from expired to unexpired funds, described in paragraph (b) are reflected on line 1012: "Unob Bal: Expired balance transfer to unexpired acct."

(b) SF 133 Report on Budget Execution and Budgetary Resources

For the SF 133 for September 30, all expiring balances, including amounts subject to reappropriation or balance transfer in the following fiscal year, should be reflected on either line 2201 "Unob Bal: Apportioned: Avail in the current period" or line 2403 "Unob Bal: Unapportioned: Other," as appropriate.

SF 133s prepared for later years should treat reappropriations and balance transfers in the same manner as the apportionment in the available columns. For reappropriations, the amounts moved from the expired TAFS to the available TAFS should show as negative amounts on lines 1131 or 1230 (see exhibit 130G). For balance transfers, the amounts moved from the expired TAFS to the available TAFS should show as negative amounts on line 1012.

(Treasury Financial Manual U.S. Government Standard General Ledger Supplement, which contains crosswalks from the U.S. Standard General Ledger to the SF 133, FMS 2108, and Program and Financing Schedule, is available at http://www.fms.treas.gov/ussgl/index.html).

(c) Schedule P of the President's Budget

When the MAX A-11 database opens, all amounts expiring on September 30 of the prior year should be reflected on schedule P line 1940 "Unobligated balance expiring (memorandum)" in the prior year column.

Amounts reappropriated (such as the example in paragraph (a)) should be reflected on line 1105 "BA: Disc: Reappropriation" in the current year column.

Amounts treated as balance transfers between expired to unexpired funds (such as the example in paragraph (b)) should be reflected on line 1012 " Unob Bal: Expired balance transf to unexpired acct" in the PY column.

Extensions of the Availability of Unobligated Balances

If the authority is provided by	Then the extension is treated as
A standing provision of law <i>enacted before</i> the budget authority was provided.	For unexpired funds: BA transfer if the transfer occurs in the same year the resource became available for obligation; balance transfer for transfers of prior year resources. For expired funds: Balance transfer for transfers of prior year
A provision <i>enacted in the same law</i> that provides the budget authority.	For unexpired funds: BA transfer if the transfer occurs in the same year the resource became available for obligation; balance transfer for transfers of prior year resources. For expired funds: Balance transfer for transfers of prior year resources.
Legislation enacted after the budget authority was provided.	For unexpired funds: BA transfer if the transfer occurs in the same year the resource became available for obligation; balance transfer for transfers of prior year resources. For expired funds: Reappropriation if the transfer occurs in the year for which the legislation is enacted; balance transfer for transfers in subsequent years.

14. WHAT IS THE HIERACHY OF APPLYING MULTIPLE REDUCTIONS TO A TREASURY APPROPRIATION FUND SYMBOL INCLUDED IN AN ANNUAL APPROPRIATIONS ACT AND A SEQUESTRATION ORDER?

If more than one discretionary reduction applies to the amount newly appropriated for your Treasury Appropriation Fund Symbol (TAFS) included in an enacted appropriations act, apply the reductions in the following sequence: (1) account-specific reduction, (2) agency-wide reduction, (3) appropriations act-wide reduction, and (4) government-wide reduction. For example, if a TAFS has an account-specific rescission of \$5M against new budget authority of \$400M and \$3M against unobligated balances of prior-year appropriations, only subtract the \$5M from the \$400M and then apply the next reduction to BA of \$395M. If a sequestration order that cancels discretionary budgetary resources is issued, the sequestration reductions will apply to a TAFS after the account-specific reduction and across-the-board reductions required by the enacted appropriation act have been calculated. (See section 100.3 for more information on sequestration of discretionary resources.)

15. WHEN AND HOW DO I RECORD AN ADJUSTMENT OF AN UNOBLIGATED OR OBLIGATED BALANCE START OF YEAR?

If you have discovered an error in the budgetary reporting for a previous fiscal year, you will be required to record the correction (e.g., adjustment to unobligated balance brought forward, Oct 1) in the current fiscal year as an adjustment to the data for the previous fiscal year, even though the action taken to correct the data occurs in the current year. This is because budgetary transactions must be booked against the fiscal year in which they were incurred so that they can be reconciled to the legal period of availability of the appropriations available at the time. Where necessary, Treasury will backdate the correction to the appropriate fiscal year, to prevent recording prior fiscal activity as current fiscal year activity. This is accomplished by filing a backdated Treasury document (Statement of Transactions, nonexpenditure transfer, or warrant), which shows both the date the correction is requested and a prior-year adjustment attribute to backdate the change to the correct period. If a backdated Treasury document must be processed, you are required to submit a request in the exercise (located at https://max.omb.gov/community/x/6YLrHQ) and identify the appropriate information such as an explanation of why the error happened, affected Treasury Appropriation Fund Symbol, the amount of the adjustment in actual dollars, an action plan, and agency contact information. Once you have submitted your request in the exercise and your backdated document to Treasury's Budget Reports Division, you may monitor the status of your request via the

exercise. For a backdated Treasury document to be approved and processed, both Treasury and OMB must provide their concurrence.

For additional Treasury guidance for processing requests to back date corrections to a prior fiscal year, please refer to TFM Bulletin No. 2012–04 titled Using the Prior-Year Adjustment Attribute Required for Federal Agencies Centralized Trial-Balance System II (FACTS II) Reporting and Submitting and Tracking Treasury Backdated Documents (http://fms.treas.gov/tfm/vol1/12-04.html). For details of what should be submitted, contact Treasury's Budget Reports Division at (202) 874–8668 for backdated Statements of Transactions and (202) 874–9865 for backdated nonexpenditure transfers and warrants.

Correcting an unobligated or obligated balance is done to reflect the amounts that were actually obligated in a previous fiscal year. Such corrections have no effect on violations of the Antideficiency Act (ADA). See section 145 for more information on ADA violations.

If a transaction impacts	Where it is determined that there is	And the amount is	Process the transaction as

16. HOW CAN I DETERMINE WHETHER A TRANSACTION SHOULD BE CLASSIFIED AS A RECOVERY?

Recoveries can pertain to both paid and unpaid obligations. In general, the basis for determining whether a transaction should be classified as a recovery depends on the specific event and the fiscal year of adjustment. Based on these factors, the table below identifies where it is appropriate to classify a transaction as a recovery of either an unpaid obligation or a paid obligation for a Treasury Appropriation Fund Symbol (TAFS).

For further information on recording adjustments as "Recoveries of prior year unpaid obligations" (line 1021), "Recoveries of prior year paid obligations" (line 1033) or "Obligations incurred" (line 2001, 2002, 2003, 2101, 2102, or 2103) in either an unexpired or expired TAFS, refer to Treasury's Bureau of Fiscal Service USSGL accounting transactions at http://www.fms.treas.gov/ussgl.
