

THE WHITE HOUSE
WASHINGTON

March 24, 2010

Dear Madam Speaker:

I ask the Congress to consider the enclosed amendments to Fiscal Year (FY) 2010 proposals in my FY 2011 Budget. Included are amendments for the Departments of Agriculture, Defense, Health and Human Services, Homeland Security, State, and the Treasury, as well as the United States Agency for International Development and the Broadcasting Board of Governors. These amendments would provide for costs associated with relief and reconstruction support for Haiti following the devastating earthquake of January 12, 2010, including reimbursement of obligations that have already been incurred by these agencies.

The proposed totals for FY 2010 in my FY 2011 Budget would increase by \$2.8 billion as a result of these amendments.

This request responds to urgent and essential needs. Therefore, I request these proposals be considered as emergency requirements. The details of these amendments are set forth in the enclosed letter from the Director of the Office of Management and Budget.

Sincerely,

A handwritten signature in black ink, appearing to be Barack Obama's signature, written over a circular stamp or seal.

The Honorable Nancy Pelosi

Enclosure

EXECUTIVE OFFICE OF THE PRESIDENT
OFFICE OF MANAGEMENT AND BUDGET
WASHINGTON, D.C. 20503

THE DIRECTOR

March 24, 2010

The President
The White House

Submitted for your consideration are amendments to the Fiscal Year (FY) 2010 proposals in your FY 2011 Budget. Included are amendments for the Departments of Agriculture, Defense, Health and Human Services, Homeland Security, State, and the Treasury, as well as the United States Agency for International Development and the Broadcasting Board of Governors. These amendments would provide for costs associated with relief and reconstruction support for Haiti following the devastating earthquake of January 12, 2010, including reimbursement of obligations that have been already incurred by these agencies.

This request responds to urgent and essential needs and, therefore, the specific amendments are being requested as emergency requirements. The proposed Budget totals for FY 2010 would increase by \$2.8 billion as a result of these amendments, which are described below and in more detail in the enclosures.

- \$150.0 million – Department of Agriculture. This request would fund emergency food aid needs to assist victims of the earthquake in Haiti.
- \$655.0 million – Department of Defense. These requests would provide funding to reimburse the Department for FY 2010 amounts previously transferred to the Overseas Humanitarian, Disaster, and Civic Aid (OHDACA) Defense account, or temporarily realigned from other OHDACA efforts, and to provide humanitarian and disaster assistance to assist victims following the earthquake of January 12, 2010, in an around Port-au-Prince, Haiti.
- \$220.0 million – Department of Health and Human Services. This request would fund critical response and recovery activities to assist victims of the earthquake in Haiti. These activities include definitive medical care in the United States for eligible evacuees, Federal repayment for the State share of Medicaid and Children's Health Insurance Program (CHIP) services for eligible medical and non-medical evacuees. Requested resources will also support public health activities in Haiti.
- \$60.0 million – Department of Homeland Security. These requests would fund activities such as reception and settlement services provided under the Cuban/Haitian Entrant Program; fee waivers for eligible Haitians granted Temporary Protected Status; and costs associated with adoptions and orphans. Funds are also requested for the Coast Guard for maintenance and related expenses resulting from operations conducted in support of Haiti response and relief.

- \$1,491.0 million – Department of State and United States Agency for International Development (USAID). These requests include \$1,245.0 million to fund relief, recovery and reconstruction needs. This includes temporary shelter, health, and sanitation needs for displaced persons, as well as re-establishing essential services, supporting reconstruction of shelter, water, sanitation, healthcare, and electricity infrastructure, and improving economic security in Haiti. Funding is also requested to re-establish detention capacity, support the criminal justice sector, and restore the counterdrug operational capacity of the Haiti National Police and Haitian Coast Guard. To provide additional programmatic oversight, funding is also requested for the USAID Inspector General.

These requests would also provide a total of \$96.5 million for the United Nations Peacekeeping Mission in Haiti, which is critical for a secure and stable environment. In addition, \$149.5 million is requested for Department of State operations requirements such as additional consular staff in Haiti; repatriation loans associated with the evacuation of U.S. citizens; and housing and office requirements for U.S. Government personnel in Haiti.

- \$219.8 million – Department of the Treasury. Of this request, \$212.0 million would support a U.S. contribution to a multi-donor agreement to cancel debts owed by Haiti to the International Development Association, the Inter-American Development Bank, and the International Fund for Agricultural Development. Funding would also be used for Treasury advisors to assist the Haitian Government with financial and economic reconstruction.
- \$5.2 million – Broadcasting Board of Governors. This request would provide for increased costs related to a surge in Voice of America Creole broadcasting in Haiti, which is a primary way for the Haitian people to get accurate information concerning relief and recovery efforts.

Recommendation

This request fulfills known and urgent needs, and I recommend that you request the specific amendments contained in this transmittal be considered emergency requirements. Therefore, I join the heads of the affected agencies in recommending you transmit these proposals to the Congress.

Sincerely,

Peter R. Orszag

FY 2010 Supplemental Proposal in the FY 2011 Budget

Agency: DEPARTMENT OF DEFENSE

Heading: GENERAL PROVISIONS

FY 2011 Budget
Appendix Page: 1362

FY 2010 Pending
Supplemental Request: ---

Proposed Amendment: Language

FY 2010 Revised
Supplemental
Request: ---

(In the appropriations language under the above heading, insert the following two new sections immediately following section 10:)

SEC. 11. Funds obligated or expended by any federal agency in support of emergency humanitarian assistance services at the request of or in coordination with the Department of Defense, the Department of State, or the U.S. Agency for International Development, on or after January 12, 2010 and before February 12, 2010, in support of the Haitian earthquake relief efforts are deemed to be specifically authorized by the Congress.

This provision would authorize funding for Federal agencies to provide humanitarian assistance to support U.S. Government relief efforts in the immediate aftermath of the earthquake in Haiti. Due to the extent of the disaster and the time critical nature of providing assistance to save victim's lives, some support was requested and provided on an emergency basis.

SEC. 12. Funds previously transferred to the "Overseas Humanitarian, Disaster, and Civic Aid" account under the authority of section 8005 of Public Law 111-118 and consistent with the notification provided on January 25, 2010 (entitled "reprogramming action 10-07PA") and the notification provided on March 15, 2010 (entitled "reprogramming action 10-08PA") for Department of Defense Haiti disaster relief activities shall not be taken into account for purposes of the limitation on the amount of funds that may be transferred under section 8005: Provided, That transfers of such funds back to their source appropriations shall not be taken into account for purposes of the limitation on the amount of funds that may be transferred under section 8005: Provided further, That such transfers back may be made 10 days following notification of the congressional defense committees.

This provision would allow the Department of Defense to transfer funds to pay for its Haiti disaster relief activities and later reimburse the accounts that supplied the funding for the activities once the supplemental appropriations act is enacted without those transfers counting toward the Department's statutory general transfer authority limit specified within section 8005 of the FY 2010 Department of Defense Appropriations Act.

-- *continued* --

The proposed total budget authority for FY 2010 in the FY 2011 Budget would not be affected by this amendment.

The funding is requested for reconstruction needs to provide essential services including shelter and supporting water, sanitation, healthcare, and electricity infrastructure. Funding will also be provided for necessary investments in agriculture, financing, farm to market roads, and major roads, bridges, and ports. Of this amount, up to \$120 million can be transferred to the Department of the Treasury for a contribution to a multi-donor trust fund. In addition, funding requested as part of this amendment can be transferred to the U.S. Agency for International Development's (USAID) Operating Expenses account for unanticipated staffing needs and can be used to reimburse other State and USAID accounts for expenses incurred in responding to the Haitian earthquake. Any transfers to the Development Credit Authority (DCA) account of funds provided under this heading would be in addition to the transfers provided in DCA's FY 2010 appropriation, allowing the Haiti mission to use the DCA mechanism without potentially displacing currently planned and anticipated DCA projects.
