

THE WHITE HOUSE

WASHINGTON

November 10, 2014

Dear Mr. Speaker:

I ask the Congress to consider the enclosed Fiscal Year (FY) 2015 Budget amendments for the Department of Defense (DOD) and the Department of State and Other International Programs (State/OIP) to fund Overseas Contingency Operations (OCO). These amendments would provide \$5.6 billion for OCO activities to degrade and ultimately defeat the Islamic State of Iraq and the Levant (ISIL) -- including military operations as part of Operation Inherent Resolve.

Accordingly, this request would provide \$5.0 billion for DOD OCO activities in addition to the \$58.6 billion DOD OCO request I submitted to the Congress in June 2014, and would result in a total DOD OCO request for FY 2015 of \$63.6 billion. This amount is \$15.8 billion less than the \$79.4 billion placeholder for DOD OCO in the FY 2015 Budget. The request would also provide \$520 million for State/OIP OCO activities, which is in addition to the \$7.3 billion I requested for State/OIP OCO activities in the FY 2015 Budget and the June budget amendment.

The approach to counter ISIL has evolved with emerging requirements identified subsequent to the June OCO amendment, and therefore not previously requested. These amendments include the additional funding necessary to degrade and ultimately defeat ISIL through a comprehensive and sustained counterterrorism strategy.

The details of these amendments are set forth in the enclosed letter from the Director of the Office of Management and Budget.

Sincerely,

A handwritten signature in black ink, appearing to be 'John Boehner', written in a cursive style. The signature is positioned to the right of the typed name.

The Honorable John Boehner
Speaker of the
House of Representatives
Washington, D.C. 20515

Enclosure

EXECUTIVE OFFICE OF THE PRESIDENT
OFFICE OF MANAGEMENT AND BUDGET
WASHINGTON, D. C. 20503

THE DIRECTOR

November 10, 2014

The President
The White House

Submitted for your consideration are amendments to your Fiscal Year (FY) 2015 Overseas Contingency Operations (OCO) request for the Department of Defense (DOD) and the Department of State and Other International Programs (State/OIP). The purpose of these amendments is to provide the resources needed to support your comprehensive strategy to degrade, and ultimately defeat, the Islamic State of Iraq and the Levant (ISIL), including military operations associated with Operation Inherent Resolve (OIR).

Our approach to counter ISIL, including OIR, has evolved with emerging requirements and additional funding needs identified subsequent to the FY 2015 OCO request submitted to the Congress in June. This package submits for your consideration an additional \$5.0 billion for DOD OCO funding (for an FY 2015 total of \$63.6 billion), as well as an increase of \$520 million for State/OIP OCO funding (for an FY 2015 total of \$7.8 billion). Overall, these amendments result in a total FY 2015 OCO request of \$71.4 billion, which is \$14.0 billion less than the sum of the OCO placeholder for DOD and the OCO request for State/OIP in the FY 2015 Budget.

ISIL poses an immediate threat to Iraq, Syria, and American allies and partners throughout the region as it seeks to overthrow governments, control territory, terrorize local populations, and implement an oppressive and intolerant interpretation of sharia law. If left unchecked, ISIL could pose a growing threat to the United States and others beyond the region. Thousands of foreign fighters – including Europeans and some Americans – have joined ISIL in Syria and Iraq. We are concerned that these trained and battle-hardened fighters will try to return to their home countries and carry out deadly attacks. At the same time, ISIL is attempting to assert itself as the leader of the global jihad. ISIL remains well-resourced and has demonstrated an ability to recruit and radicalize through social media. Funding in this amendment will provide resources to support your comprehensive strategy during FY 2015.

In support of OIR, these amendments request funding for DOD to conduct a range of military operations against ISIL in the Middle East region, including for items such as:

- sustaining personnel forward deployed to the Middle East to provide training, advice, and assistance to partner security forces engaged in the fight against ISIL;
- providing forces with enablers to support operations, especially the intelligence, surveillance, and reconnaissance (ISR) platforms and support that are essential to conduct comprehensive counterterrorism operations;

- replenishing or replacing munitions expended while conducting airstrikes against ISIL, including from Air Force and Navy platforms; and
- financing operations and maintenance costs for air, ground, and naval operations, including: flying hours; ship steaming days; and fuel, supplies, and repair parts.

The request includes \$1.6 billion to establish the Iraq Train and Equip Fund (ITEF). ITEF would provide DOD, working with our coalition partners, the resources and authorities to develop and support Iraqi national security forces, including Kurdish forces, as they confront ISIL in Iraq. Our advisors are working to train and advise Iraqi forces, including Kurdish forces, to improve their ability to plan, lead and conduct operations against ISIL. ITEF will provide the resources to help reconstitute and develop security forces. This combination of operational advising and support and force development will be a critical step in our effort to degrade and ultimately defeat ISIL in Iraq and ultimately the entire region. ITEF will complement other efforts to enable partners to counter terrorism, such as the Counterterrorism Partnerships Fund you requested in your June 2014 OCO request.

The proposed OCO funding is additive to the \$58.6 billion DOD request you sent to the Congress in June 2014, which included the costs of operations in Afghanistan, DOD's strong forward military presence in the broader Middle East region, and other critical missions. The costs of military operations against ISIL in the Middle East region were not included in the June 2014 request, and the Department requires additional funding to fulfill your counter-ISIL strategy in order to avoid diverting funding from other key priorities within its budget.

These amendments also include \$520 million in funding for State/OIP, which is additive to the \$7.3 billion total OCO request for State/OIP in the FY 2015 Budget and June OCO amendment including CTPF. The existing request provides funding for diplomacy, governance, and security programs and activities to respond to the situation in Syria and other ongoing global crises. Amendments include additional resources to counter ISIL in Iraq, Syria, and the rest of the region. The funds will support the following activities:

- bolstering regional partners and their efforts to address extremist threats along their borders;
- expanding ongoing assistance to the moderate Syrian opposition to develop their capacity to provide local security for their communities;
- providing assistance to meet emergency humanitarian needs in Iraq; and
- exposing ISIL's bankrupt ideology and narrative by amplifying positive messaging through international media and public diplomacy programs.

Recommendation

I reviewed these amendments and am satisfied that they are necessary at this time. Therefore, I join the Secretary of Defense and the Secretary of State in recommending that you transmit the amendments to the Congress.

Sincerely,

A handwritten signature in black ink, appearing to read 'Shaun Donovan', with a long horizontal flourish extending to the right.

For the "Iraq Train and Equip Fund", \$1,618,000,000, to remain available until September 30, 2017:

Provided, That such funds shall be available to the Secretary of Defense, with concurrence from the Secretary of State, to provide assistance to military and other security forces of, or associated with, the Government of Iraq, including Kurdish and tribal security forces, with a national security mission, to counter the Islamic State in Iraq and the Levant, including the provision of equipment, supplies, services, training, facility and infrastructure repair, renovation, construction, and stipends:

Provided further, That the authority to provide assistance under this heading is in addition to any other authority to provide assistance:

Provided further, That the Secretary of Defense may waive any other provision of law that would otherwise prohibit, restrict, limit, or otherwise constrain the obligation or expenditure of funds for the purposes provided herein:

Provided further, That the Secretary of Defense may accept and retain contributions, including assistance in-kind, from foreign governments, including the Government of Iraq, and other entities, to carry out assistance authorized under this heading:

Provided further, That contributions of funds for the purposes provided herein from any foreign government, including the Government of Iraq, and other entities, may be credited to this Fund, to remain available until expended, and used for such purposes:

Provided further, That of the amount provided under this heading, not more than 60 percent may be obligated to provide assistance under this heading to military and other security forces of, or associated with, the Government of Iraq, including Kurdish and tribal security forces, until foreign governments, including the Government of Iraq, and other entities expend or contribute funds for those forces, or provide in-kind support for those forces, with a total value, as determined from October 1, 2014, by the Secretary of Defense, of not less than 40 percent of the amount provided under this heading, of which at least 50 percent shall have been contributed or provided by the Government of Iraq:

Provided further, That the limitation in the preceding proviso shall not apply (1) to the provision of any supply or equipment that is an item of significant military equipment (as such term is defined in section 47(9) of the Arms Export Control Act (22 U.S.C. 2794(9))) or is included on the United States Munitions List, as designated pursuant to section 38(a)(1) of the Arms Export Control Act (22 U.S.C. 2778(a)(1)); or (2) in circumstances where the Secretary of Defense determines, in writing, that the national security objectives of the United States will be compromised by the application of the limitation to such assistance:

Provided further, That the Secretary of Defense shall, not fewer than 5 days prior to obligating more than 60 percent of funds pursuant to the previous proviso, notify the congressional defense committees in writing of the details of the proposed obligation:

Provided further, That the preceding proviso shall not apply to an obligation of funds if the Secretary of Defense determines that the national security objectives of the United States will be compromised by the application of the proviso, in which case the Secretary of Defense shall immediately notify the congressional defense committees that such obligation is necessary and provide any relevant information (in classified form, if necessary):

Provided further, That amounts made available under this heading are designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended:

Provided further, That amounts provided under this heading shall be available only if the President designates such amounts for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A).

This amendment would provide \$1.6 billion for assistance to military and other security forces of, or associated with, the Government of Iraq (GoI), including Kurdish and tribal security forces, with a national security mission to counter ISIL. The authority includes the provision of equipment, supplies, services, training, facility and infrastructure repair, renovation, construction, and stipends. Of note, the proposal for this authority also includes provisions to ensure Iraqi contributions to this effort, since Iraqi partnership is critical to this effort. Specifically, the Iraqi Train and Equip Fund (ITEF) addresses the requirement to build the Iraqi military, other security forces, and Peshmerga proficiency; and to provide material support to tribal elements allied with Iraqi forces. The GoI will be required to contribute to the cost burden,

including items such as site operations, life support of its forces, and other costs; coalition partners will contribute personnel and support for this effort.

Key principals of the ITEF are that (1) the GoI is in the lead and will share the cost burden, (2) U.S. assistance levels are limited and are focused on bridging the most critical near-term capabilities consistent with the campaign plan, and (3) coalition participation and support will be actively sought for both personnel and financial support.
