Dear Office of Information and Regulatory Affairs Hunt:

&#8226;If analysis is fully applied, regulations for air pollution, toxic waste cleanup, food labeling and other quality of life issues could be weakened or not even implemented at all&#8212;and our senior citizens will feel the brunt of it since their health is the most vulnerable to dirty air and unhealthy food.

&#8226;The OMB's conclusion that the lives of senior citizens are less valuable raises serious ethical and scientific questions.

&#8226;As an American citizen who is the grandchild/child/relative of a senior citizen, I find that devaluing an elderly person's life is unethical and unmoral.

Sincerely,

Marita M Hardesty
