Subject: Office of Management and Budget proposed peer review science in regulatory process

Joshua B. Bolten,
Director, Office of Management and Budget,
725 17th Street, N.W., NEOB Room 10201,
Washington, DC 20503

This matter is of grave concern in the timeliness of the regulatory process.

The overarching OMB proposal is excessive broad and inclusive and will unduly hinder the already cumbersome federal regulatory process.

The OMB should withdraw the Bulletin announce proposal and engage in more practical solutions to the need for peer review of scientific underpinning of the individual regulatory actions.

Thank you for the opportunity to comment.

Rickalon L. Hoopes, Director
Bureau of Fisheries
Pennsylvania Fish and Boat Commission
